Regrow®

**CASE REPORTS:**

1. **Case Details:** 43 years male, serviceman.
  - Hot oil burn on right anterior-lateral palmer surface to dorsal surface of right hand involving wrist.
  - The initial treatment (simple dressing) failed developing contracture within 7 days.
  - Patient was advised at KEM hospital by his surgeon to go for Theraform™ application.

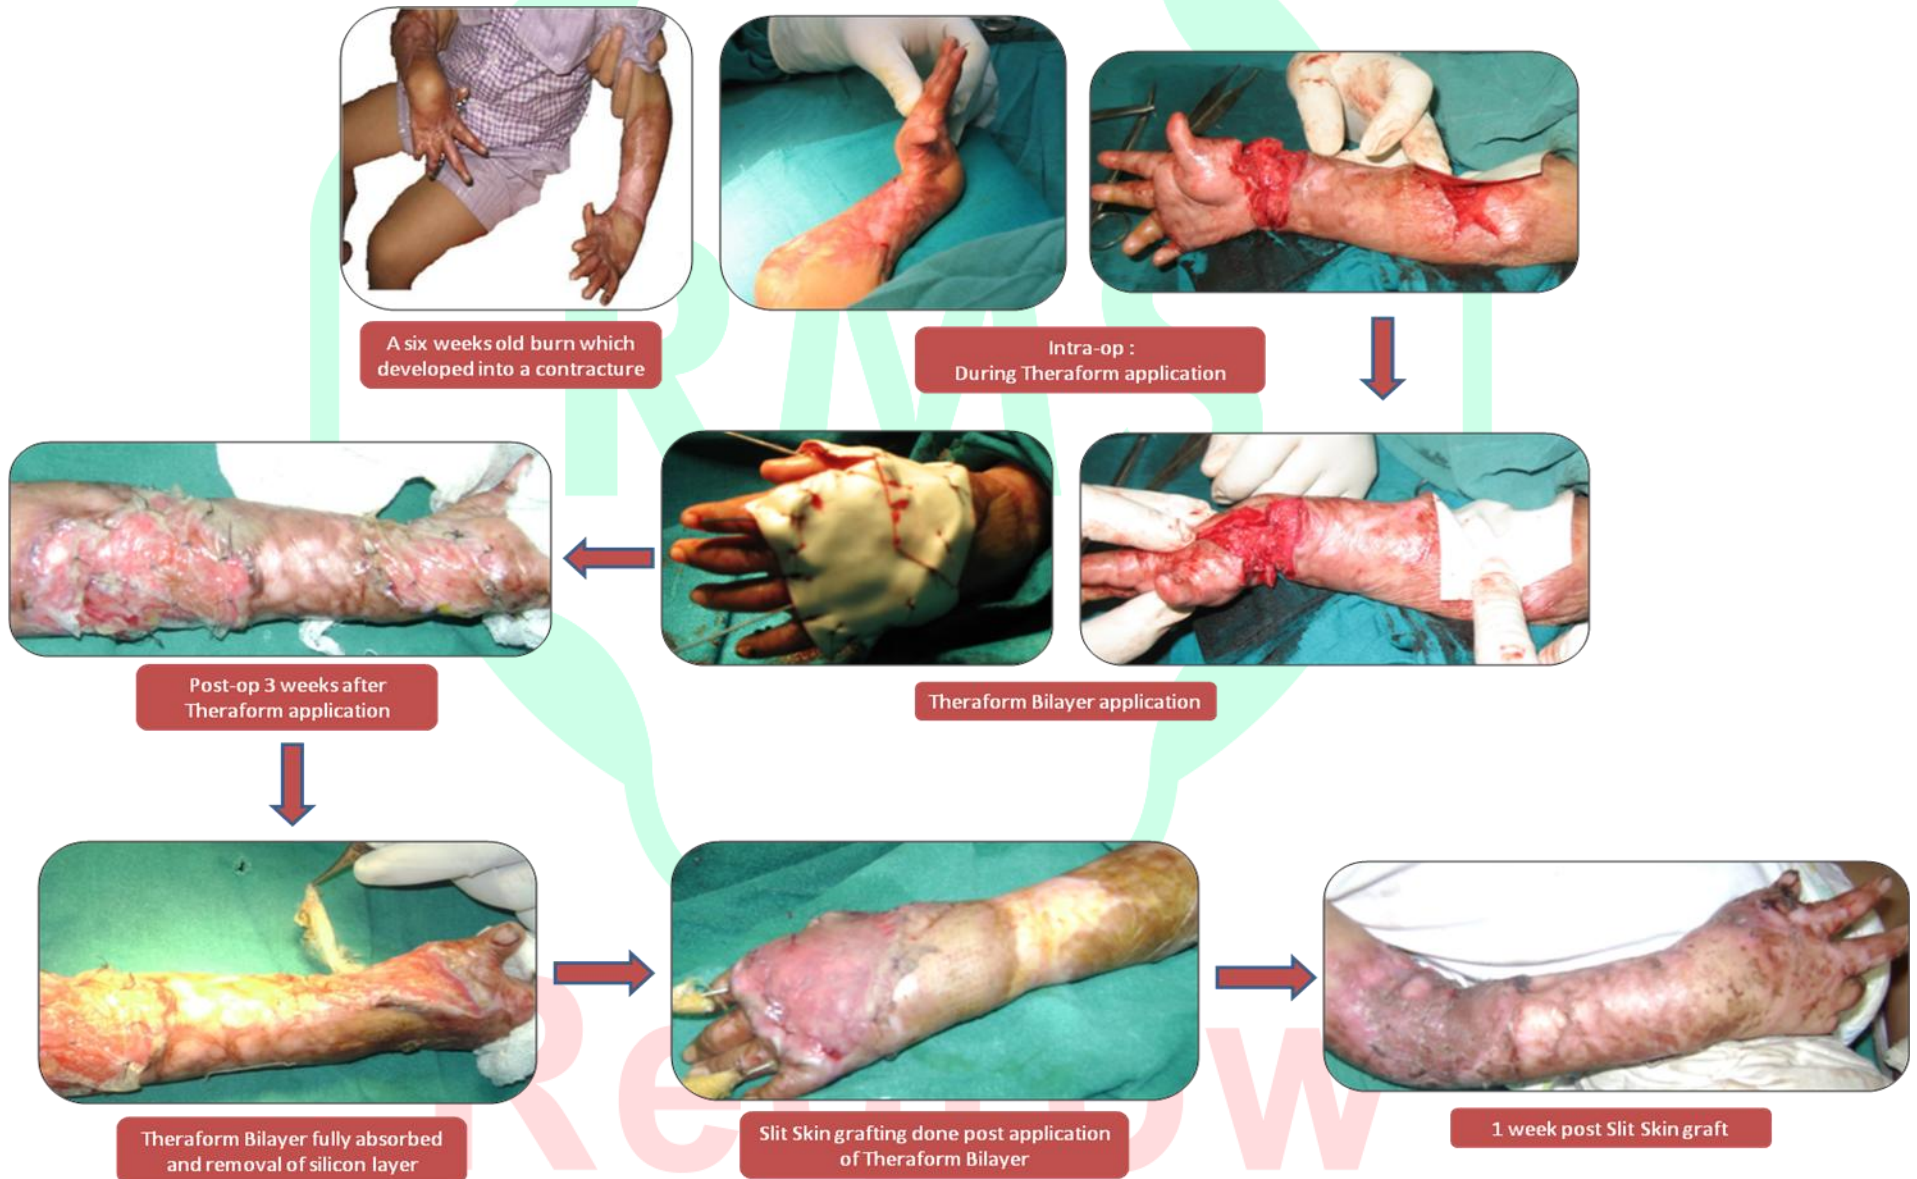

**Patient comments:** "I am a worker in private company. I had a severe oil burn on right hand since 3 months from now. The dressing which was done initially did not yield any success and the wound developed into contracture. My wife being a nurse took me to a well renowned plastic surgeon at KEM Hospital. He informed us about the new dressing available in market, which he said would be applied on burn area to help tissue or skin regeneration. We believed the surgeon and got my burn wound treated with Theraform".

"Today I am happy that I got my burned hand treated with Theraform. I feel that a new skin is been formed over my wound. Within few days I will be back joining my job again", he (patient) added.

2. **Case Details:** 2 years male child

- Post Burn Reconstruction of skin tissue on both the hands.
- A six weeks old burn which developed into a contracture was treated with TheraForm™ Bilayer at Safdarjung Hospital, New Delhi
